

Rotech Underwater Power Pack

PRODUCT SPECIFICATIONS

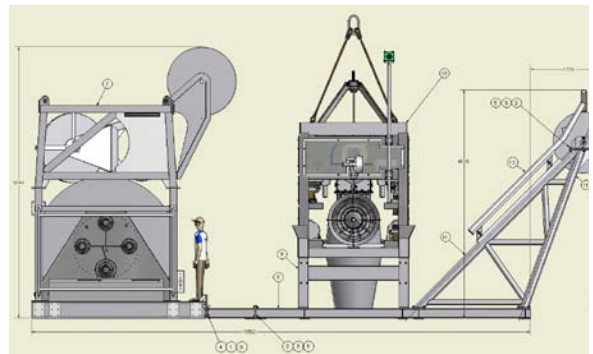

The Rotech Underwater Power Pack (UPP) replaces the usual topside diesel-powered hydraulic pump with an electrically driven hydraulic pump sited with the tool, to permit operation in much deeper water than is possible with the standard arrangement.

The system is designed to operate to a depth of around 3,000m, depending on the handling system and umbilical.

APPLICATIONS

- ◆ Pipeline/Cable Trenching
- ◆ Decommissioning & Abandonment Excavation
- ◆ Free Span Rectification
- ◆ Inspection, Repair & Maintenance Excavation
- ◆ Pre-Sweeping/Seabed Preparation

WEIGHTS & DIMENSIONS

	<u>Length</u> (m)	<u>Width</u> (m)	<u>Height</u> (m)	<u>Weight</u> (kgs)
T4000 with Underwater Power Pack	3.8	2.3	4.5	7,660
Electric Generator	6.1	2.4	2.6	11,500
Transformer	6.1	2.4	2.6	8,980
Control Cabin & UPP Spares Container	6.1	2.4	2.6	8,000
Electric Umbilical Spooler	4.3	3.9	6.1	31,000
Deployment Frame	8.6	2.2	4.8	3,400
